

INDICE / INDEX / INDEX

SESION / SEANCE / SESSION I

FUNDAMENTOS TEORICOS DEL DRENAJE INTERNO DE FIRMES Y EXPLANADAS FONDEMENTS THEORIHUES DU DRAINAGE SOUS CHAUSSEES ET SOLS SUPPORTS DE CHAUSSEES FUNDAMENTAL PRINCIPLES OF SUBDRAINAGE FOR PAVEMENTS AND SUBGRADES

	PÁG.
SUCCIÓN Y HUMEDAD EN BASES Y EXPLANADAS DE CARRE- TERAS	3
E.E. Alonso <i>Catedrático de Ingeniería del Terreno</i> <i>ETS de Ingenieros de Caminos, Canales y Puertos. Barcelona.,</i> <i>España</i>	
SUCTION AND MOISTURE REGIMES IN ROADWAY BASES AND SUBGRADES	57
E.E. Alonso <i>Professor of Geotechnical Engineering</i> <i>ETS de Ingenieros de Caminos, Canales y Puertos. Barcelona, Spain</i>	
A study on the behavior of pore water due to drainage through saturated soil road base	105
Koichi Akai <i>Osaka Soil Test Lab. Japan</i> <i>Hiroyasu Ohtsu and Yuzo Ohnishi</i> <i>School of Civil Engineering, Kyoto University, Kyoto Japan</i>	
Modeling of Transport Phenomena of Two-Phase Flow Under Non- Isothermal Conditions	113
Arnold, W. and M. Nishigaki <i>Okayama Univ. Japan</i>	

Prediction and Implication of Water Regimes in Granular Bases and Sub-bases	121
A.R. Dawson & A.R. Hill <i>University of Nottingham U.K.</i>	
Succión y Módulo Resiliente: Un estudio desarrollado en un centro de ensayos a escala real en el sur de Brasil	129
Wai Ying Yuk Gehling, Jorge Augusto Ceratti, Washington Peres Núñez and Suyen Nakahara <i>Federal University of Rio Grande do Sul - Brazil</i>	
Estudio sobre la influencia de la succión en el módulo resiliente de los suelos de explanadas para firmes de carreteras	137
Wai Ying Yuk Gehling, Jorge Augusto Ceratti, Washington Peres Núñez and Márcia R. Rodrigues <i>Civil Engineering Post-Graduation Course - Federal University of Rio Grande do Sul - Brazil</i>	
Analysis of a transient flow through porous media	145
A. Hamza and R. Bahar <i>University of Tizi-Ouzou, Algeria</i>	
Comparasion of different internal drainage systems based on FEM	153
M. Lebeau, J. Lafleur & Y. Savard <i>Department of Civil, Geological and Mining Engineering, École Polytechnique de Montréal, QC, Canada</i> <i>Ministry of Transportation of Quebec, QC, Canada</i>	
Condiciones para el buen funcionamiento de una capa drenante	163
Fernando Muzás Labad <i>Dr. Ingeniero de Caminos C. y P.</i> <i>Profesor de Mecánica del Suelo ETSAM</i>	
Modelo Numérico del Comportamiento Hidrodinámico de un Firme	171
Vicente Navarro Gámir e Ignacio Pérez Pérez <i>Escuela Técnica Superior de Ingenieros de Caminos, Canales y Puertos de La Coruña</i>	
Movements of road pavements due to a rise in the ground water table and water infiltration	179
K. Nesnas and I.C. Pyrah <i>Napier University, Edinburgh</i>	

Un modèle de simulation du drainage routier	187
Alain Quibel <i>Centre d'Expérimentation Routière, CETE Normandie Centre, France</i>	
Horizontal infiltration of moisture in road pavements	195
M. Yonssefzadeh <i>University of Tabriz, Iran</i> R. J. Frer-Hewish <i>University of Birmingham, UK</i> A. M. Carson <i>Battie Group, UK</i>	

SESION-SEANCE-SESSION II

ESTUDIOS EXPERIMENTALES E INSTRUMENTACION ETUDES EXPERIMENTALES ET INSTRUMENTATION EXPERIMENTAL STUDIES AND INSTRUMENTATION

PERFORMANCE OF DRAINABLE PAVEMENT SYSTEMS: AN U.S. PERSPECTIVE	205
Barry R. Christopher, Ph. D., P.E. <i>Christopher Consultants</i>	
Infiltration dans un tuf non saturé à l'oedomètre à succion contrôlée	215
S. Ed Diny, H. Ejjaouani, A. Oueld El Hachmi, M. Tabet <i>Laboratoire Public D'Essais et d'Etudes</i>	
Compressibilité d'un tuf non saturé à l'oedomètre à succion contrôlée	223
H. Ejjaouani, S. Ed Diny, A. Oueld El Hachmi, M. Tabet <i>Laboratoire Public D'Essais et d'Etudes</i>	
Highway sub-surface drainage utilising fin drains	231
P.R. Fleming <i>Loughborough University, UK</i>	
Prediction des variations de teneur en eau de sols supports de chaussées sur le manege de fatigue des chaussées du LCPC	239
Pierre Horny, Jean-Michel Piau, Jean-Claude Gramsamer <i>Laboratoire Central des Ponts et Chaussées, Centre de Nantes, France</i>	

Influence de l'eau sur le comportement mécanique des graves non traitées et des sols supports de chaussées	249
Pierre Horny, Olivier Hameury, Jean Louis Paute Laboratoire Central des Ponts et Chaussées Centre de Nantes, France Laboratoire Régional des Ponts et Chaussées de Saint-Brieuc, France	
Mechanisms controlling seasonal variation of moisture content in roads	259
Jean-Marie Konrad and Marius Roy Dept. of civil engineering, Université Laval	
Influence de l'état hydrique sur le comportement des matériaux compactés	267
D. Nadir Laradi, D. Abderrahim Bali & Smail Haddadi Institut de Génie Civil, USTHB - Alger	
A Study on Pore Water Pressure Measurement for Vadose Zones	275
M. Nishigaki, K. Hirooka, M. Komatsu, A. Tohari Okayama University, Department of Environmental and Civil Design, Japan Electric Power Development Co., Ltd, Chubu Branch Office, Civil Centre, Japan	
Study on Dynamic Properties of Base Materials for Permeable Pavements	283
Yoshio Ohne, Hidehiro Tatebe, Kunitomo Narita Professor of Aichi Institute of Technology, Japan Taizou Ohyo, Etsorou Asami General Manager of Technology Department of Taihei Kogyo Co., Ltd., Japan	
An instrument for measuring subgrade pore water suctions in semi-arid environments	291
Andrew M. Ridley Department of Civil Engineering, Imperial College of Science, Technology and Medicine, London. England	
Evaluation of Water Flow Through Pavement Systems	295
Ruth Roberson and Bjorn Birgisson, Ph. D., P.E. Research Soil Scientist, Minnesota Department of Transportation Research Associate, University of Minnesota-Department of Civil Engineering	

Monitoring of Drainage Systems by Fibre - Optic Distributed Sensing Techniques	303
M. Schreck, M. Nishigaki, S. Grosswig, E. Hurtig, K. Kühn, H. - R. Gläser, W. Glaßer Okayama University, Department of Environmental Engineering Okayama, Japan GESO GmbH Jena. Germany Centre for Environmental Research. Leipzig, Germany	

A study of water infiltration through asphalt road surface materials	311
Thomas Joseph Waters Senior Physicist, Main Roads, Queensland	

SESION-SEANCE-SESSION III

PROYECTO Y CONSTRUCCION PROJET ET CONSTRUCTION DESIGN AND CONSTRUCTION

LE DRAINAGE ROUTIER: ÉTABLISSEMENT DES PROJETS ET AVANCÉES TECHNOLOGIQUES	321
Jean-Louis Paute Laboratoire Régional des Ponts et Chaussées. Saint-Brieuc, France	
The use of geosynthetics as vertical drainage screens in road construction	343
Henny C. Berkhout Akzo Nobel Geosynthetics, Netherlands	
Water in Pavements, - Practical Behaviour	351
Carl Birck Nellemann, Nielsen & Rauschenberger A/S. Denmark	
Subgrade equilibrium water content and resilient modulus for UK clays	359
P.R. Fleming, C.D.F. Rogers, M.W. Frost Loughborough University, UK A.R. Dawson Nottingham University, UK	

U.S. Army Corps of Engineers Design, Construction, and Performance Experience with Pavement Drainage.....	367
William P. Grogan <i>U.S. Army Engineer Waterways Experiment Station</i>	
Evaluation and classification of subgrade moisture regimes	375
Ivan Gschwendt and Rudolf Stano <i>Faculty of CE, TU Bratislava</i>	
Un guide technique sur le drainage des chaussées et des plates-formes routières - limites et enjeux.....	383
Jean-Louis Paute <i>Laboratoire Régional des Ponts et Chaussées, Saint-Brieuc, France</i>	
Parámetros relevantes para el proyecto de drenajes sintéticos laterales en las carreteras	391
Roberto Roberti y Luis Eduardo Russo <i>Universidad de Trieste, SEOC spa. Italia</i>	
La propuesta de nueva instrucción española sobre drenaje subterráneo de carreteras	403
Jesús Santamaría, Francisco Sinis, Marta Alonso, José L. García de la Oliva <i>Dirección General de Carreteras. (Ministerio de Fomento)</i> <i>Centro de Estudios de Carreteras del CEDEX. (Ministerio de Fomento)</i> <i>Laboratorio de Geotecnia del CEDEX. (Ministerio de Fomento)</i>	
Drainage system for hill roads in India	411
S.M. Sarin, Jai Bhagwan <i>Central Road Research Institute, New Delhi, India</i>	
Modelling the changes in subgrade acceptability during road construction	419
I.G.N. Smith <i>Department of Civil & Transportation Engineering, Napier University, Edinburgh</i>	
An innovative approach to the prediction of moisture conditions in flexible pavements	427
Thomas Joseph Waters <i>Senior Physicist, Main Roads, Queensland</i>	
The strength of pavement materials following drainage.....	435
Thomas Joseph Waters <i>Senior Physicist, Main Roads, Queensland</i>	

SESION-SEANCE-SESSION IV

CONSERVACION DEL DRENAJE INTERNO. CONTROL DE LA CONTAMINACION ENTRETIEN DU DRAINAGE SOUS CHAUSSEES. CONTROLE DE LA POLLUTION SUBDRAINAGE MAINTENANCE AND POLLUTION CONTROL

DESIGN - CONSTRUCTION - MAINTENANCE: A SYNERGISTIC APPROACH TO PAVEMENT SUBDRAINAGE SYSTEMS	443
Steven Sawyer <i>Oklahoma Department of Transportation, USA</i>	
PIARC COMMITTEE C-12 INTERNATIONAL SURVEY ON ROADWAY SUBDRAINAGE	455
Edward J. Hoppe <i>Member of PIARC Committee C-12 Virginia Transportation Research Council. Charlottesville, USA</i>	
Propuesta para mejorar la corrección de deflexiones en función de la humedad de las capas granulares	499
Rafael Alvarez Loranca y Jorge de Diego Castro <i>GEOCISA España</i>	
The Lithuanian Experience with Asphalt Overlay Fabrics	507
Deron N. Austin <i>Manager of Engineering Services Synthetic Industries, Inc. Chattanooga, Tennessee, USA</i> Valdas Kezys <i>Technical Director Lithuanian Road Department. Vilnius, Lithuania</i>	
Video Inspection of Highway Edgedrains	515
Robert H. Baumgardner <i>Pavement Division. Federal Highway Administration, USA</i>	
Etude qualitative des fluctuations hydriques des sols supports de chaussées in-situ	523
Isabelle Bleuzen <i>Ingénieur Géologue. VECTRA, Buzancais, France</i>	
L'évacuation des eaux de surface des chaussées para infiltration dans le sol, selon la législation suisse	531
Roger Pfister <i>Office Fédéral des Routes, Berne, Suisse</i>	

Terrain conditions and its influence on subdrainage systems for roads	537
Byron E. Ruth and Reynaldo Roque	
<i>Department of Civil Engineering. University of Florida. Gainesville, Florida, USA</i>	
 A drainage system to avoid cristallization in filter drains	 545
Georg Tophinke	
<i>Straßenneubauamt Mitte, Neumünster</i>
